

Directors Corner - Roly Worsfold

The NorthWest Scale Aero-Modellers (NWSAM) activities from January to March 2011 are the result of the support of many NorthWest Scale Aero-Modellers. The NWSAM is about promoting Scale Aero-modelling from small Fun Scale to competitive National events in both the United States and Canada.

I thank Terri Ingram for taking on the role of Treasurer, setting up our Non-Profit Status in the state of Idaho and maintaining the appropriate records. We thank you Terri!!!

We are still looking for "Area Coordinators" from Alaska and Montana. E-mails have been sent out for query's to clubs in those states to see if there is any interest.

Rick Dunn has put a lot of work into designing our website for ease of navigation. Thank you for your work. Please note that we have a simple method of administering memberships and donations through the website.

Our NWSAM's website focus is to provide useful information for Scale Aero-Modellers, Contest Directors, prospective judges and clubs hosting Scale RC Aero-Modelling events. Improvement will be ongoing and we welcome suggestions and/or information from modellers which will contribute greatly to our success.

NWSAM supports the efforts of the Academy of Model Aeronautics (AMA), Model Aeronautic Association of Canada (MAAC) the U.S. Scale Masters Association and any other organization in the world that promotes Scale Aero-Modelling.

As we move forward in promoting Scale in the North West we will be attempting to contact every Club in the area so they know who we are and that we are here to help them promote Scale Aero-Modelling through their club activities.

Recently we formed a partnership with the Shriners which will provide mutual benefits to NWSAM and to the Shriners Hospitals for Children. Local clubs hosting a Scale event in the North West will have an opportunity to work with local Shriners to promote Scale RC Aero-modelling and support the Shriners Hospital International. We are working on the details. Stay tuned.

Thank you all for your support, if you have suggestions on how we can improve do not hesitate to contact your area coordinator, Rick Dunn or myself.

We encourage you to share this newsletter.

Sincerely,

Roly Worsfold - Director - NorthWest Scale Aero-Modellers
